

Manufacturer's Declaration – RoHS and REACH – ATB Nordenham

ATB Nordenham GmbH confirms that its motors have been assessed with regard to the use of certain hazardous substances in accordance with the applicable legal requirements listed below and that the respective applicable requirements are met on the basis of the available material and conformity documentation.

RoHS Compliance

Our motors comply with the requirements of Directive 2011/65/EU (RoHS), including Amendment Directive (EU) 2015/863, on the restriction of the use of certain hazardous substances in electrical and electronic equipment. The applicable maximum concentration values for restricted substances are observed, taking into account any applicable statutory exemptions.

REACH Compliance

Our motors comply with the applicable requirements of Regulation (EC) No. 1907/2006 (REACH), as amended.

Based on the material information available to us, our motors do not contain Substances of Very High Concern (SVHCs) included in the current Candidate List published by the European Chemicals Agency (ECHA) in concentrations exceeding 0.1% by weight.

The relevant information and communication obligations under REACH are duly observed.

Lead-Free Motor Versions

In addition to our standard motor versions, we also offer fully lead-free motors upon request. These are manufactured in accordance with the agreed technical requirements and material specifications. Availability and specific design details must be agreed upon for each motor type.

This declaration of conformity is based on the material information and technical documentation available to us, the declarations of conformity provided by our suppliers, and our internal product assessments. The information is provided to the best of our knowledge and belief, based on the information available at the time this declaration is issued.
